(54) Title: GASTROINTESTINAL DEVICE

(57) Abstract: A gastrointestinal device including a casing in-  
cluding fixation elements adapted for intraluminal fixation of the  
device in a gastrointestinal tract (e.g., the anorectal wall), a valve  
disposed in the casing and controllable to move from a closed  
position, which significantly restricts passage of gastrointestinal  
(e.g., fecal) matter therepast, and an open position, which per-  
mits passage of gastrointestinal matter therepast, and a controller  
operatively connected to the valve for externally controlling the  
position of the valve between the closed and open positions.
